

VACANCY

Berakas Power Company Sdn Bhd (BPC), a Power Utility Company operating within Brunei Darussalam, is currently seeking to recruit a suitably qualified candidate for the post of Mechanical Technician.

We are seeking a highly skilled Power Station Mechanical Technician for a new 132 MW Combined Cycle Gas Turbine (CCGT) plant, currently under construction and equipped with Siemens SGT-800 gas turbine technology. This is a unique opportunity to work in a state of the art, high-efficiency, power generation facility from construction through to commercial operation and beyond.

Key Responsibilities

Construction and Commissioning Phase:

- Assist in developing and implementing all required maintenance documentation and systems required for the mechanical maintenance section, including:
 - Standard Operating Procedures (SOP's)
 - Maintenance plans and schedules
 - Spare parts inventory requirements
 - Predictive and preventative maintenance programs.
 - Computerised Maintenance Management System (CMMS)
 - Asset Management Program
- Identify and acquire all tools and test equipment required for the mechanical section.
- Assist in establishing a functional workshop for the mechanical maintenance requirements.
- Support the Owners Engineers in reviewing technical specification, deliverables, and contractor submissions.
- Become familiar with the mechanical scope provided under the Long Term Program (LTP) with Siemens Energy for the maintenance of the SGT-800 gas turbine units in preparation for COD.
- Participate in commissioning, performance testing, and plant start-up activities, ensuring alignment with OEM and project requirements.

Operations Phase (Post COD):

- Carry out all preventative, predictive and corrective maintenance on all the power station mechanical equipment – gas and steam turbines, HRSG's, ACC, pumps, fans, gearboxes, compressors, motors, valves, tanks, pressure vessels, piping and all other mechanical BOP equipment.
- Maintain all plant mechanical documentation.
- Participate and provide support with the LTP program with Siemens Energy for the plant gas turbines.
- Assist in troubleshooting and perform root cause analysis during unplanned equipment breakdown or issues.
- Ensure compliance with all regulatory, environmental, and safety standards.

Qualifications, Requirements and Competencies

- ◆ Recognized Mechanical Technician Diploma / Certificate or equivalent qualifications and/or experience acceptable to the Company.
- ◆ Minimum of 7 years of demonstrated hands on experience as a Mechanical Technician at a CCGT power station; or an equivalent combination of training and experience.

- ◆ In depth knowledge of CCGT power generation technology, including gas and steam turbines, HRSG's, ACC, water treatment Plant and other general CCGT power plant auxiliary equipment.
- ◆ Computer literacy with Microsoft Office applications
- ◆ Experience with using computerised maintenance management systems (CMMS).
- ◆ Proactive, pragmatic and results oriented.
- ◆ Proficient command of the English language, both spoken and written.
- ◆ Desirable:
 - Previous experience with Siemens SGT-800 gas turbines.
 - Previous experience working outside native country or region, proven ability to deliver results in a multi-cultural environment.

Applicants

Interested applicants are to submit their Curriculum Vitae and copies of their Certificates together with a cover letter. A recent passport size photograph should be included with the application. Only shortlisted candidates will be invited for assessment and interview.

Applications should be emailed to hr@bpc-brunei.com. The closing date for applications is 31st March 2026.
