

VACANCY

Berakas Power Company Sdn Bhd (BPC), a Power Utility Company operating within Brunei Darussalam, is currently seeking to recruit a suitably qualified candidate for the post of CCGT Power Plant Operator.

We are seeking highly skilled Power Station Plant Operators for a new 132 MW Combined Cycle Gas Turbine (CCGT) plant, currently under construction and equipped with Siemens SGT-800 gas turbine technology. This is a unique opportunity to work in a state of the art, high-efficiency, power generation facility from construction through to commercial operation and beyond.

Key Responsibilities

Construction and Commissioning Phase:

- Assist in developing and implementing all required operation documentation, including:
 - Policies and Procedures
 - Standard Operating Procedures (SOP's)
 - Operation Logs and reports
 - Lock Out/Tag Out (LOTO) PTW system
 - Emergency Response procedures
- Support the Owners Engineers in reviewing engineering deliverables, technical specifications, and contractor submissions.
- Identify and acquire all tools and test equipment required by the operations department including for the Water Treatment Plant and Lab.
- Participate in commissioning, performance testing, and plant start-up activities, ensuring alignment with OEM and project requirements.

Operations Phase (Post COD):

- Operate the CCGT power plant in a safe, reliable, and efficient operation under the supervision of the Shift Charge Engineer – utilising the Plant DCS and GT/ST control system.
- Ensure compliance with all regulatory, environmental, and safety standards.
- Support in managing the PTW system.
- Carry out minor maintenance work orders.
- Ensure that the plant operates at its maximum availability and reliability.
- Assist in troubleshooting and perform root cause analysis during unplanned events.
- Work with plant maintenance personnel and other related personnel in scheduling equipment outages.

Qualifications, Requirements and Competencies

- ◆ Recognized Engineering Diploma / Certificate or equivalent qualifications and/or experience acceptable to the Company.
- ◆ Minimum of 7 years of demonstrated experience as a Plant Operator at a CCGT power station; or an equivalent combination of training and experience.

- ◆ Minimum of 5 years' experience in operating all power plant equipment from the centralized control room using both the Plant DCS and GT/ST control systems.
- ◆ Minimum of 5 years' hands on experience in starting up and shutting down Gas Turbines and Steam Turbines.
- ◆ Minimum of 5 years' hands on experience in starting up and shutting down HRSG's.
- ◆ Minimum of 5 years' hands on experience in synchronizing generators.
- ◆ In depth knowledge of CCGT power generation technology, including combustion and steam turbines, HRSG's, ACC, water treatment plant and other general auxiliary equipment and systems.
- ◆ Computer literacy with Microsoft Office applications.
- ◆ Proactive, pragmatic and results oriented.
- ◆ Proficient command of the English language, both spoken and written.
- ◆ Desirable:
 - Previous experience with Siemens SGT-800 gas turbines.
 - Previous experience using Emerson Ovation OCR3000 DCS system.
 - Previous experience using Siemens GT/ST control system.
 - Previous experience with vertical HRSG's.

Applicants

Interested applicants are to submit their Curriculum Vitae and copies of their Certificates together with a cover letter. A recent passport size photograph should be included with the application. Only shortlisted candidates will be invited for assessment and interview.

Applications should be emailed to hr@bpc-brunei.com. The closing date for applications is 31st March 2026.
